

SCHOOL ACCIDENTS

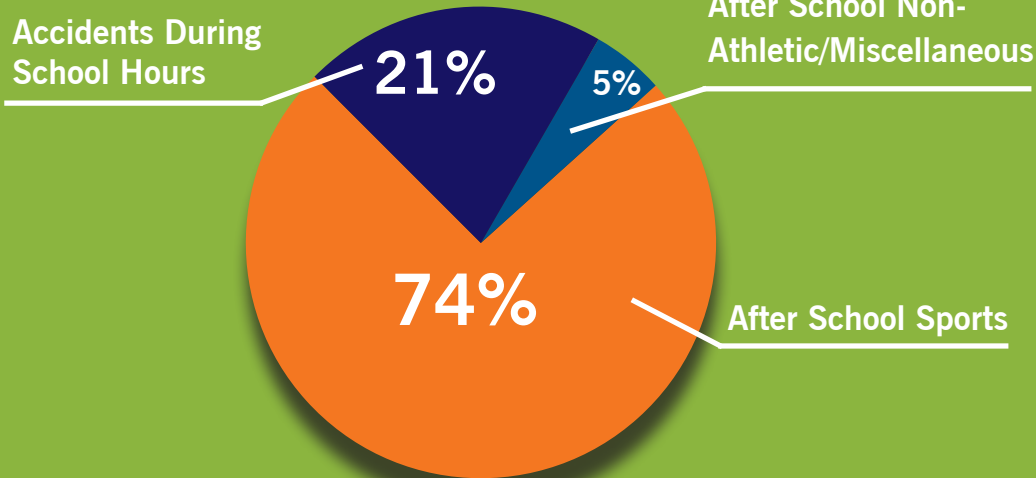

IMPROVING SAFETY BY KNOWING YOUR NUMBERS

Bollinger Specialty Group's proprietary enhanced claims system revealed the top K-12 student accident activities and injuries for the 2015-2016 school year. Protecting the health and welfare of students is a concern that all school administrators face each and every day. Getting a better handle on what activities are causing the most accidents can help your school put a plan in place to reduce the potential for injuries.

By using data from our enhanced claims system, below are claims percentages from the 2015 – 2016 school year.

ACCIDENT CLAIMS

CALCULATE YOUR WAY TO SPORTS SAFETY

These are the top 3 sports that contribute toward the total number of claims.

31%

FOOTBALL

10%

SOCCER

9%

BASKETBALL

DON'T DISCOUNT CLASSROOM

21% of claims occurred during school hours and 16% of those claims were from accidents during gym class and on the playground.

10%

GYM CLASS

6%

PLAYGROUND

5%

CLASSROOM/HALLWAY

TALLY UP THE INJURIES

These top 2 reported injuries make up almost half of the total claims.

35%

KNEE/LEG

13%

HEAD/NECK

COUNT ON A PLAN

Now that you've seen the numbers, here are some steps your school can take to help reduce accidents.

1

Form a safety committee of staff and students.

2

Create a set of schoolwide safety rules.

3

Implement safety training for all students.

4

Conduct regular inspections and repairs of facilities.

5

Enforce safety and play by the rules.

Bollinger Specialty Group offers individual reports for our school clients. Contact us today by e-mailing BollingerSpecialtyGroup@ajg.com and see how your school measures up.
